Memo for DD/S from AD/CS, 11 Dec 64, S.
Sub: New Mgmt Info System for CIA

Management Information System for the Agency.

STAT

of DD/S working on plan for designing.

Mr. Becker agreed time was right to reactivate the plan

since OCS had just merged with ADPD, and planned to convert the Computer Center to 3rd generation compatible hardware systems. Therefore it would be a matter of reprogramming present systems with costs largely in the design element of the project.

The costs for undertaking the project would be significant.

Becker also asked the DD/S for a formal charter to cover OCS participation.
